

LaCie d2 Blu-ray Drive

USB 2.0 & FireWire

**Record Up To
50GB* On 1 Disc**

d2 Design by Neil Poulton

THE PROFESSIONAL CHOICE FOR BLU-RAY

● Professional HD Video Recording

Engineered for professional video authoring houses, the LaCie d2 Blu-ray Drive records, rewrites and plays back high-definition (HD) video. Store up to 4 hours of HD video on a 50GB* disc—about 10 times as much as a DVD. Shoot HD videos from your camcorder, author the videos, and burn them without any quality loss using multiple video codecs (MPEG2, AVC, VC-1). Then, share them with customers or give them to a replication facility for distribution.

● A Compelling Multimedia Experience

BD-ROM doesn't mean only high-definition video. With the LaCie d2 Blu-ray Drive, enjoy an HD movie with vibrant sound. Blu-ray offers up to eight channels at 192kHz/32 streams of audio quality. Get a stunning experience with multiple simultaneous videos, updatable content, full interactive challenges and activities.

● Cost-Effective, Long-Term Archives

Now you can store large amounts of valuable administrative documents, audio asset libraries, raw video shoots and multiple image files on a single disc with complete peace of mind. The LaCie d2 Blu-ray Drive's writing process ensures record authenticity and longevity on sturdy write-once discs with an enhanced scratch-resistant hard coating surface. It also offers a packet writing option. By choosing Blu-ray technology, you get a low cost per gigabyte in safe storage.

● Quick & Easy Backup Solution

This state-of-the-art drive comes bundled with easy-to-use burning software, which includes a backup application. It is a genuine timesaving solution for regularly backing up important files or emails at an impressive data transfer rate. In addition, LaCie's exclusive, trusted, aluminum d2 drive design is unsurpassed for durability and offers near-silent operation.

50GB* =
4 hours of
HD video****

- Record, rewrite and play back HD video
- Save up to 50GB* of digital data on 1 Blu-ray disc
- Multi-format BD (Blu-ray) & DVD/CD writer in one
